Jillian's talk was engaging, captivating and the feedback from attendees was overwhelmingly positive.

Jillian did an amazing job in linking her personal story and experience to the business context that people encounter on a daily basis. The power of Jillian's approach is that it can talk to any culture, background and experience.

- Silvère Aubriot, Novo Nordisk, Denmark

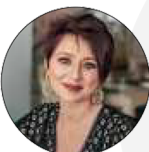

Your heartening comments on the strength and resiliency of you and your family also gave hope to many in the audience that no matter what your situation is, perseverance, hope, dedication, and hard work ethic can make a difference (and change a life).

- Ljubomir (LJ) Stambuk, President & CEO, World Affairs Council of Charlott & Bank of America

Often we see speakers described in publicity material as "inspirational" speakers and this often turns out to be a mere cliché. But there is a speaker whom I recently heard who is truly inspirational and she is Jillian Haslam.

- Clive Amos, Past District Governor, Rotary in London

Jillian's talk deeply moved and inspired every single person in the audience. Jillian does not 'just motivate', she inspires. She does not 'just talk', she lives and breathes her vision of changing the world for the better. Hire Jillian to manage your event, do it now!

- Lenka Lutonska, Advantage Woman Founder, UK

Coaching and speaking—like true leadership—only works if one is left inspired. And Jillian is quite the inspiration.

Her humility is astonishing, and it makes all the difference. She builds trust and inspires you to reflect and come to your own conclusions on the path you need to take.

Her passion for human understanding makes for a great motivator. If you are going to learn what it takes to be successful despite all odds, there's no one better to learn from.

Her capacity to deal with adversity seems immeasurable. I am certain everyone will find inspiration when listening to her telling her story of how she goes from a life of nothing to achieving unbelievable success.

- Ambi Venkateswaran, Consultant, Aozora Bank Ltd., Tokyo (Formerly, CEO, Bank of America Corporation - India)

It's difficult to inspire others to accomplish something that you haven't tried. If you are going to learn what it takes to be successful despite all odds, there's no one better to learn from!

- Tahira Ansari, Manager Communications, Santander, UK

Her experiences fascinated the student members of CUIID, not merely because of the instinctive appeal of her rags-to-riches tale. It is no Cinderella story, but rather emphasizes hard work and sheer courage.
